The salient points of his report are as follows:
 - 2013 was a challenging year for your Company. Our goal was to achieve consistent profitability and sustainable growth. Market forces, however did not cooperate. Our strength, our resolve was tested with prices of our two main product lines, nickel and gold, continuing to soften during the year.
 - Notwithstanding the challenges, we continued to expand our customer base for our nickel ore; pushed for higher operating efficiencies in our nickel production; ramped up our gold milling operation and implemented operating efficiency programs.
 - Despite the challenges, we continued to fulfill our responsibilities to the communities we are involved with and to our environmental commitments.  - b. Enterprise development and networking;
 - c. Infrastructure development and support services;
 - d. Education and educational support program;
 - e. Health services; and
 - f. Socio-cultural activities and education.
- Moving past the challenges, we continued to advance the development of our existing properties and projects to prepare for your Company's long term sustainability:
 - a. Our Balatoc Tailings Project is in the fund raising stage with the pre-development almost completed.
 - b. We are likewise pursuing the development of our Greater Acupan Project, our Ampucao copper and gold prospect, our Bulk Water Project, among others.
 - c. If these projects cannot be funded internally, we will be seeking partners to accelerate the development of these projects.
 - 2013 was a set back but we firmly believe that 2014 will be far better year for your Company in terms of sustainable growth.
 - We would like to thank you, our shareholders, for the patience and we commit that this patience will be rewarded. We would like to thank the members of our Board of Directors, who guided, pushed and motivated us to deliver positive results. And we would like to thank fellow employees who are tirelessly doing their best to make all of these happen. Thank you and have a good day everyone."
